2020-21 eLearning Information

Families who chose the eLearning option for the 2020-21 school year will participate in an online learning format in which students are expected to be active participants in the classroom, whether present in the building or in an online learning environment. Students are expected to maintain consistent attendance and actively engage in classroom activities, assignments and discussions. Active engagement includes attending virtual, face-to-face meetings and completing and submitting online assignments within the designated time frame.

While an online learning format does not mirror classroom instruction, the elearning curriculum is taught by MES teachers and is aligned with state standards. All students participating in this format will be required to take classroom formative assessments and state assessments.

Families considering the eLearning option should review the following:

Attendance:

- Consistent attendance is an expectation and includes participation in online meetings, participation in discussions, and completion and submission of assignments. Please refer to the MES Student Handbook for specific guidelines regarding truancy and attendance requirements.
- **A semester commitment is required for elearning enrollment. Students will not be able to return to the In-School option until the following semester.**

Grades:

- Grades will be assigned using the current classroom grading scale per the MES Student Handbook.

Technology Access:

- Students participating in the elearning option will be assigned a Chromebook.
- It is the responsibility of the parent/student to download/upload and submit assignments within the required time frame as set by the teacher.
- Internet access is available at Monroe-Gregg School District parking lots, outside of the Monrovia Community building and the Wilbur fire station.

Standardized Assessments

- eLearning students are required to complete all state assessments. Assessments will be administered on-site at Monrovia Elementary.

Exceptional Learners

- **Parents should contact the *Teacher of Record* to discuss the elearning option.**

Extracurricular Activities

- **Students who choose the elearning option will not be able to participate in extracurricular activities.**
